courseplay
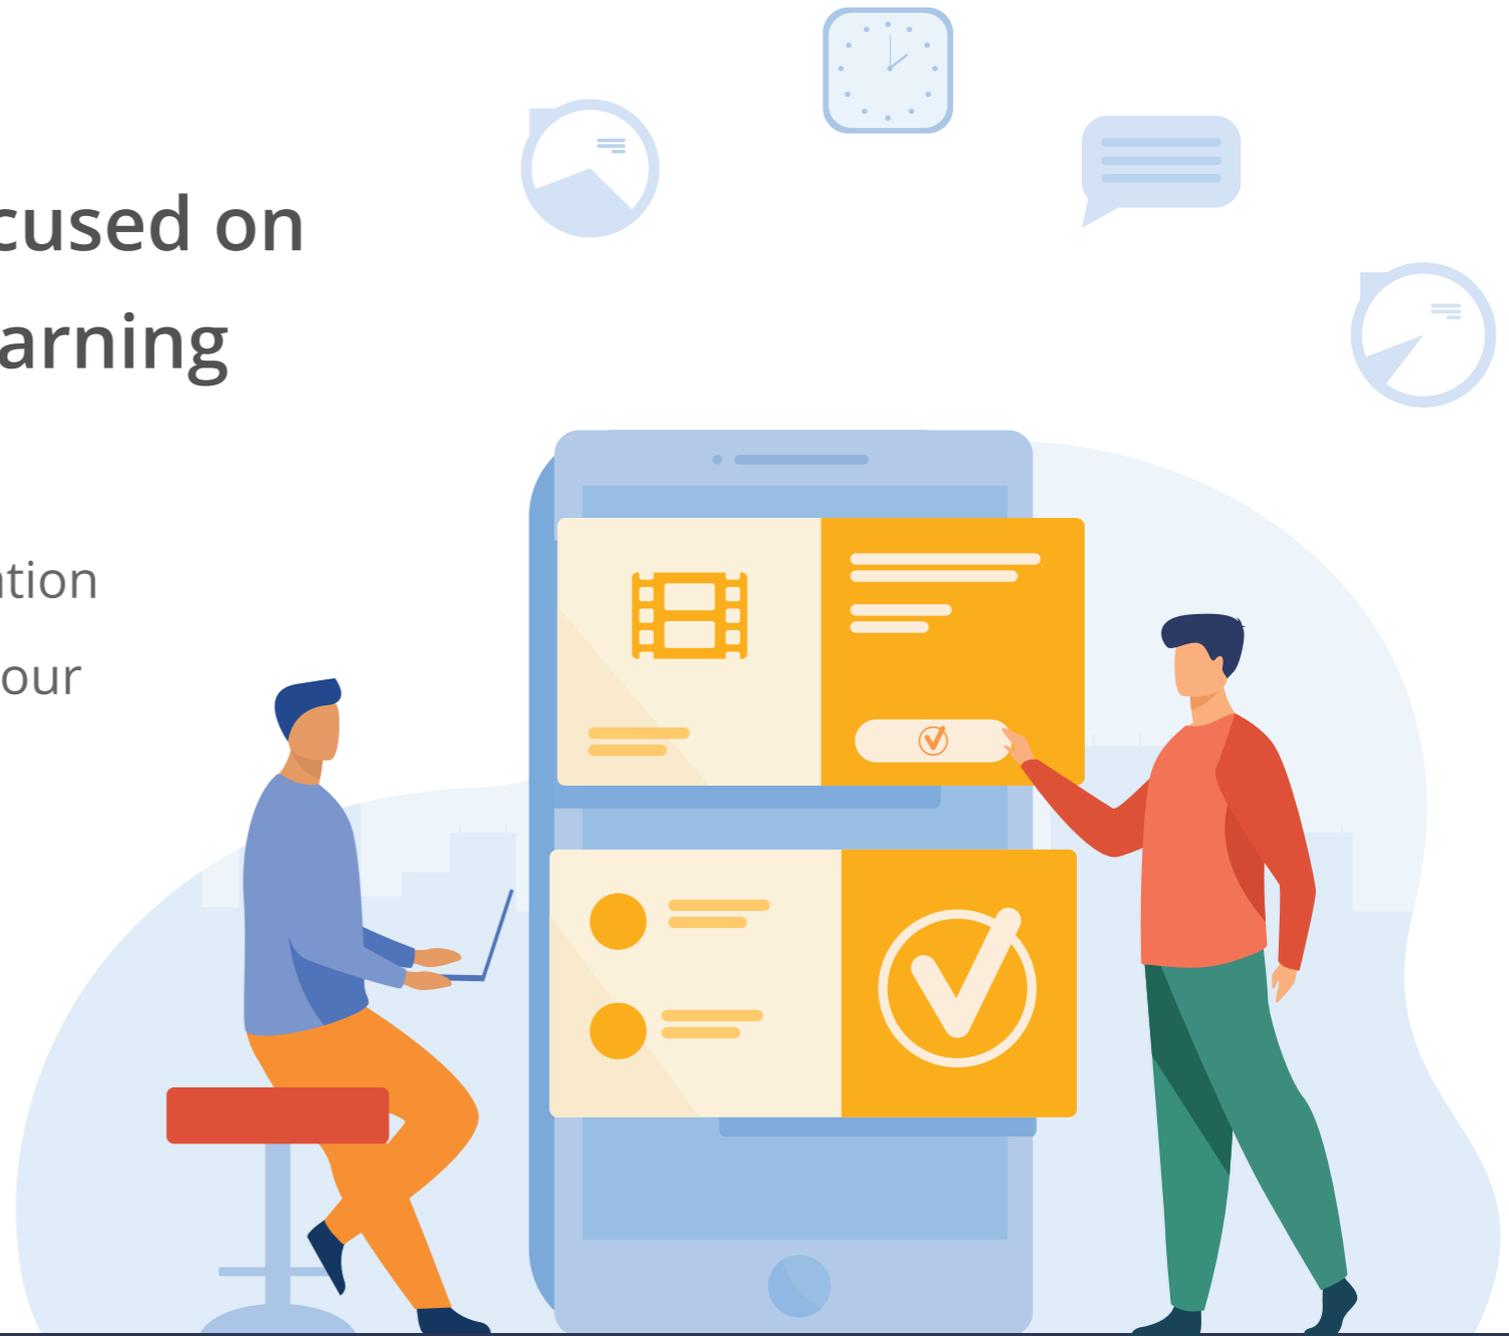

Talent development suite focused on employee growth through learning

Plug learning into the heart of your organization and capture real-world impact. Manage all your learning programs on a single platform. Programs will be responsive based on role needs and skill wants.

Provide your employees with a singular platform to track their growth in multiple dimensions. Manage and automate all your learning programs from one place. Courseplay AI makes recommendations based on role-needs and skill-wants for a growth-focused employee experience.

How we help our clients with talent transformation

Train

Bring content from any source or choose from our off-the-shelf library to provide learners with a pool of content that fits their growth plans
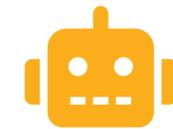

Engage

Keep your learners hooked with gamified features like leaderboards, rewards and badges. Use our AI-powered Chatbot to offer zero-touch programs

Measure

Use data from performance, behavioural and coaching activities to measure the impact of learning programs on the bottom line with surgical precision

Repeat

Define workflows to make the assignment and management of activities a breeze. Automatically capture reports and ensure tasks are completed on time

Our happy customers

SpiceJet   HYUNDAI   mothercare   emami*   HealthifyMe

Features our customers love

Coaching

Empower your managers to act as coaches for their teams, enabling each employee to do their best work

Mentorship

Automatically connect employees with mentors from within the company, based on pre-defined mentorship expectations

Channels

Provide learners with a hub for their talent development activities based on their skills and roles

Real-time Reports

Get your data when you need it. Scheduled reports can be sent straight to your inbox to ensure easy access

App Integrations

Integrate with your internal HR, IT, Operations and Sales tools to ensure data is always synced across the organization

Multi Language

Offer content in more than 100 global languages to ensure that your team gets the right message!

Skill Management

Track all your skills in a single place and map them for each role, learning objective and performance indicator

Announcements

Send micro-learning nuggets, urgent communications and helpful tips as needed and ensure readability across the team

Game-based Learning

Integrate interactive learning modules from anywhere and offer a single place for all your training content
