

Make time for what matters.

Time tools you need that build trust from within

For more resources on how to employ and efficiently manage an hourly team, visit www.staffany.com/blog.

Minimise labour costs

Stop time theft and reduce manpower costs with our time clock sidekick which automates rounding, early clock-in prevention, and auto clock-out to help control your budgeted costs.

Monitor Staff Performance

Unlike biometric sensors, we pro-actively remind your team before their shifts. In the unfortunate case where things go bad, we alert you instantly for you to take necessary action.

Automatic Timesheets

With StaffAny, overtime calculations, work performance and the anomalies are automated and flagged out for your attention. Clock in records from different outlets are also consolidated for your payroll administration.

Generate Real Time Reports

With StaffAny, overtime calculations, work performance and the anomalies are automated and flagged out for your attention. Clock in records from different outlets are also consolidated for your payroll administration.
